

LIFE WAS A MISERY TO HER

Says this Woman Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Carrollton, Ky.—"I suffered almost two years with female weakness. I could not walk any distance, ride or take any exercise at all without resting. If I swept the floor or did any kind of work it would bring my sickness on. I was weak and languid, had no energy, and life was a misery to me. I was under the care of a good physician for several months and tried other remedies. I had read of Lydia E. Pinkham's Vegetable Compound and decided to try it. After taking twelve bottles I found myself much improved and I took six more. I have never had any more trouble in that respect since. I have done all kinds of work and at present am an attendant at a State Hospital and am feeling fine. I have recommended your Vegetable Compound to dozens of my friends and shall always recommend it."—LILLIAN THARP, 824 S. 6th St., Carrollton, Ky.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

Free!

\$5.00 Cash and a New Pair of Shoes

will be given to the wearer who finds PAPER in the heels, counters, insoles or outsoles of any shoes made by us, bearing this trade-mark.

FRIEDMAN-SHELBY
INTERNATIONAL SHOE CO.

"It Takes Leather to Stand Weather"

See your neighborhood dealer and insist on the Friedman-Shelby "All-Leather" Trade-Mark. More wear to each pair means real shoe economy.

No More Misery After Eating

Just Takes An Eatonio

"The first dose of Eatonio did me wonders. I take it at meals and am no longer bothered with indigestion," writes Mrs. Ellen Harris.

Thousands of people, like this dear lady, gratefully testify about Eatonio, which does its wonders by taking up and carrying out the excess acidity and gases which bring on indigestion, heartburn, bloating, belching and food repeating. Acid stomach also causes about seventy other non-organic ailments. Protect yourself. A big box of Eatonio costs but a trifle with your druggist's guarantee.

PARKER'S HAIR BALSAM

Restores Color and Beauty to Gray and Faded Hair

HINDERCORNS Removes Corns, Calluses, etc., stops all pain, restores comfort to the feet, makes walking easy. 15c. For mail or at Druggists. Hineck Chemical Works, Paducah, Ky.

FRECKLES POSITIVELY REMOVED by Dr. Berry's Freckle Ointment—Yag. Applied by Dr. Berry, 2975 Michigan Avenue, Chicago.

No Words Wasted.

"What's the trouble?" asked the man in the barber's chair.

"No trouble, I hope, sir. Everything seems all right."

"But you don't while away the time with news and comment as you formerly did."

"Against the rules to do so, sir. If you want a lecture it will be charged for extra the same as boy run or hair tone."

Important to Mothers

Examine carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the Signature of *Wm. D. Galt*.

In Use for Over 30 Years.

Children Cry for Fletcher's Castoria

WATERBURY'S Night and Morning Eye Salve. Have Strong, Healthy Eyes. If they are Itchy, Smart or Burn, it is Inflamed, or if you have other eye troubles, Waterbury's Salve is the best. It is the only eye salve that is safe for the eyes.

WALTER E. MILLER,
County Treasurer of Dakota County, Nebraska.

Beauty in Bells.

There is a beauty in bells which is fast being lost to the modern world. Since we cannot keep them in use as they were hundreds of years ago, we must try to keep up an interest in those which remain, and learn what we can about one of the chief beauties of the Middle Ages. See how many references to bells can be found in great literature. There is one poem which stands out and which we all should know, "The Bells," by Edgar Allan Poe.—Brooklyn Eagle.

World's Largest Opal.

Proclaimed as the largest uncut precious stone in the world, an enormous, absolutely flawless black opal, recently discovered in the United States, is now in the office of a government official in Washington. The gem contains approximately 21 cubic inches and weighs 2,572,332 carats. It is valued at \$125,000 by the owners. The famous Viennese opal, which was without an equal until this specimen was found, weighs 1,658,927 carats.

Home Versus House.

Home cannot be given us. We may be given a house, a place to eat and sleep. This is not a home. A home is a place of love and rest and peace. Love and rest and peace must be deserved, must be earned. Nobody can hand them to you as so many packages. They are matters of reciprocity. If you have none to give there will be but little for you to receive.—Western Methodist.

The Stingy Man.

He was known as the stingiest man in town. The Sunday schools were planning a picnic and every one wondered what he would bring. The leader read off the menu and the different members offered to bring this or that. Then one young man said as he didn't have anyone to cook for him, he would bring the coffee. Then the stingy man spoke up and said: "I will bring the water for the coffee."

Electric Bulb Burst Inwardly.

When an electric bulb is burst, either by design or accident, the force of the explosion is inwardly. This has been proved by painting the bulb with a harlequin effect, half one color and half another. After the explosion, which may be accomplished by a well-aimed bullet from a pistol, the colored pieces will be found on the opposite side from which they were originally placed.

A Natural Polisher.

According to the pearl fishers of Ceylon nothing so enhances the luster and sheen of a valuable pearl as lying for a few weeks within the crop of a fowl.—Asia Magazine.

How Mint Buys Gold.

The mint buys gold in any form, whether coined or not, when presented in sums to the value of \$50 or more. The face value of coins is not considered, only their weight and purity. An equivalent amount of lawful money is given in exchange. Theoretically, the gold is coined and handed back to the owner without charge. In practice, as a matter of convenience and to save time, the mint simply buys the gold and pays its full coinage value—that is, what it will be when coined.

Average Life, Thirty-Three Years.

Good authorities give the average duration of human life as about thirty-three years. One quarter of the people on the earth die before the age of six, one-half before the age of sixteen, and only about one person of each one hundred born lives to the age of sixty-five. The deaths are calculated at sixty-seven a minute, 97,790 a day and 35,639,885 a year. Births are calculated at about seventy a minute, 100,800 a day and 36,792,000 a year.

Monarch Showed Gratitude.

In Plutarch's "Life of Alexander" he tells of the great battle this distinguished Macedonian fought with Darius at Gaugamela, which signifies "the camel's house," and says that one of the ancient Persian kings, having escaped the pursuit of his enemies on a swift camel, in gratitude to his beast settled him at this place with an allowance of certain villages and rents for his maintenance so long as he should live.

Improved Umbrella Construction.

Mechanically simple as an umbrella is, it must generally be taken all apart to repair a broken rib or stretcher, and the task is beyond most owners says Popular Mechanics Magazine. A Brooklyn inventor has improved on the usual construction by inserting the end of each rib and stretcher between a pair of metal ears on the notch and runner members, using a short wire with bent ends or the pivot.

It All Depends.

"Smith must have bought a car," remarked Jones. "What makes you think that?" asked Brown. "He used to talk about the blank-blank automobiles," replied Jones, "but now he is talking about blank-blank jaywalkers."—Cincinnati Enquirer.

It is a noble and great thing to cover the blemishes and to excuse the failings of a friend; to draw a curtain before his stains, and to display his perfection, to bury his weaknesses in silence, but to proclaim his virtues upon the housetop.—Robert Southery.

LIE SAVES LIVES

Chief Steward Quiets Refugees on Endangered Ship.

Lights Pipe With Steady Hand and Tells Passengers There Is No Danger—Riot Would Have Doomed Vessel.

This is a story of a white lie, which was told in the White sea. It was told by the chief steward of a White Star liner, says the Montreal Star.

During the evacuation of the Murmansk coast, when tens of thousands of refugees and troops were being taken away from north Russia to escape the bolshevik firing squads, one of the liners, a new White Star vessel, was blown onto a reef close inshore with a thousand troops and 1,500 refugees on board. It happened at eleven o'clock at night, and until 4 a. m. the ship pounded on the reef, tearing her bottom plates to pieces, also making considerable water in all her holds.

The captain held a final consultation in his cabin, himself, the chief engineer, purser, chief steward and other department heads being present. The captain stated coldly that in his own opinion when the ship got off the reef, with the rising tide, she would take water in so quickly that it would simply be a nose dive into deep water.

The chief steward then reported that every man, woman and child on the ship wore a life belt, even the babies. The soldiers were also equipped. He also stated that he had the passengers fairly well in hand. "Well," said the captain, "we may as well make preparations for the worst."

"If she takes water the way I think she will, it will simply be a case of every man for himself."

The conference was over and the chief steward left the captain's cabin and stood at the top of the stairs above the upper deck. Two thousand pairs of eyes were peering up at him to read the fate of the ship and themselves. Chief Steward Robinson did not walt. He took out his pipe and lit it with a steady hand, then turning to the molling crowd below, that needed only a word to turn it into a seething mob, he said:

"There is no danger at all. You can all go to bed." They went and the ship slid off but did not sink. She was a new vessel and her patent double bottom had saved her. Later on she was forced to dock at Cromarty, a naval base in the north of Scotland, and this was safely managed. All the passengers, mostly mangled of Russian towns and their dependents, were landed without mishap. Had a riot occurred on board ship the ship's staff could never have handled her in the skillful way which prevented her from leaving half her bottom on the reef. Chief Steward Robinson, with his pipe in hand, had told the biggest lie in his life, but it was a white one and did the trick.

He stated afterward that the reason his hand did not shake was for two and a half years he had slept aboard ship above ammunition cargoes and had become quite fatalistic in the presence of supreme danger.

Reinforced Concrete Pipes.

Interesting methods of manufacturing reinforced concrete pipes have lately come into use in the mining districts of South Africa. Discarded wire ropes from a great accumulation are separated into their strands, and reweven into a cylindrical mesh for the inside of the pipe molds. The centrifugal process is used, the molds being revolved until the concrete, made with crushed stone from the mines, is evenly distributed and the water separated out. Not over nine minutes is required to make six four or six-inch pipes, 15 minutes for four 15 or 18-inch pipes, and 20 minutes for the 60-inch size. The finished pipes stand pressures up to from 210 to 350 pounds per square inch, according to size, and then fail only by becoming porous.—Popular Mechanics Magazine.

Pain in Old Wound Imaginary.

The pain felt in the scars of wounds long after they have healed is, according to Dr. Arthur F. Hurst, physician and neurologist at Guy's hospital, London, due to the impression made on the patient's mind by the original pain. In spite of the fact that the cause of the pain has gone, his mind has got so accustomed to feeling the pain that he continues to feel it.

"It has generally been ascribed," said Dr. Hurst in a recent lecture before the Royal College of Surgeons, "to nerve fibers becoming involved in scar tissue, but nothing abnormal may be found at operation." Such patients are rapidly cured when the matter is thoroughly and carefully explained to them.

Bouncing Clocks.

The newest thing in clocks is made of rubber, and is meant especially for travelers.

This kind of clock, being incased in rubber, has an almost inaudible tick. If it falls, it bounces and suffers no injury. It is, in fact, proof against ordinary shocks.

This characteristic makes the rubber clock suitable for mounting on an automobile, a motorboat, an airplane or wherever vibration or shock might disturb the mechanism of an ordinary timepiece.

Its Meaning.

"Is there any meaning in the shower or bouquet which brides carry?" "Of course; it means they are going to reign."—Baltimore American.

The Flavor Lasts So Does the Price!

POINTED OUT BRIGHT SIDE WHAT THE TEACHER THOUGHT

Optimist's Brave Effort to Convince Afflicted Man That the Cloud Had Silver Lining.

Mr. Juergins had been suddenly afflicted with a stiff neck. Not only was it a painful stiffness, but it caused him to twist his head around until he seemed to be trying to look behind him over his left shoulder, and his head was rigid in that pose.

"Of all the confounded trials a man was ever subjected to," he said, "this is the limit. They say to look on the bright side of our afflictions, but I'd like to know how I could make use of this stiff neck."

"My dear friend," said the optimist, "think what a golden opportunity this is to sit for your picture without having to allow the photographer to twist your head around that way and jab those ice-cold tongs into the back of your neck!"

Comment That Took a Whole Lot of Conceit Out of One Small Boy's Daddy.

"The world is full of fault finders," remarked Professor Pritchard at a dinner recently, "and one of the most common targets is the modern education system. No more common expression than, 'Well, they used to really teach us something when I went to school.'"

"I have a friend like that, but the other day he told me he was through. It came about in this way. He used to help his little son with his home studies. One evening, as they were about to begin, he asked the little chap what his teacher said regarding his home work."

"She says I'm getting stupider every day," replied the lad, and from then on he had to do his home lessons alone."

Hunting Trouble.

"What makes you think the ex-kaiser hates peace?"

"I understand he is anxious to get back to Berlin."

In the Art Gallery.

"Statue of Julius Caesar. Rather bald."

"The next one is Baidur."—Louisville Courier-Journal.

Summer Love.

"Beautiful girl, I love you."

"But you barely know me."

"Perhaps that is why I love you."

Trying to do business without advertising is like a man winking at a girl in the dark.

Ceremony was invented by a wise man to keep fools at a distance.

If you like the taste of coffee, you'll like

INSTANT POSTUM

and you'll like it better than coffee because it is a table drink of satisfying flavor, with no after regrets, and it costs less.

Coffee disagrees with some, but Instant Postum agrees with everybody.

"There's a Reason" for POSTUM

Sold by grocers everywhere!

Made by Postum Cereal Co., Inc., Battle Creek, Mich.
